

SIEW WEI EN

 LinkedIn |  011-1171-1791 |  weiensiew@gmail.com |  GitHub

Skills

- **Languages:** Python | Java | JavaScript | TypeScript | SQL | Dart
- **Frameworks & Full-Stack:** Next.js, React, Node.js, FastAPI, Flutter, Firebase, REST APIs, Microservices
- **AI & ML:** TensorFlow, PyTorch, Keras, RAG, Agentic AI, LLM Integration, Prompt Engineering, EDA, NumPy, Matplotlib
- **Cloud & Tools:** AWS Bedrock, Google Cloud Platform (Vertex AI, BigQuery, Vision/NLP/Speech APIs), Git, GitHub, Jupyter, Figma
- **Spoken:** English, Chinese, Bahasa Melayu

Experience

Gen AI Business Automation Intern (CRM & Servicing) - Maxis

08/2025 - 02/2026

- **Self-initiated and delivered a GenAI proof-of-concept** for CRM case automation (image-to-case generation), proposing it to leadership, building it end-to-end, and writing the integration documentation
- Contributed to **Generative AI initiatives** by exploring **LLM integrations (Gemini, AWS Bedrock)**, **prompt engineering**, and AI-driven workflow automation use cases in enterprise systems
- Built and debugged **ServiceNow business rules** and backend automation (background scripting, structured logging, error handling) across **DEV/UAT/PROD environments**
- Strengthened enterprise **data pipelines** through validation, cleansing, and configuration alignment across routing logic and system tables

Education

Bachelor of Computer Science, Universiti Malaya

10/2023 - 04/2027

- Major in **Artificial Intelligence (AI)**
- Current CGPA: **3.75**
- Campus Involvement: Sponsorship & PR – PEKOM | Deputy Marketing – UM Startup Community | Junior Executive – AIESEC in UM

Hackathons & Competitions

- **Runner-Up – ELLM Startup Hackathon (05/2025):** built **AI and LLM-powered solutions** to solve real-world industry challenges.
- **Finalist – CodeNecton 2024 (Open Finals, CP Category) (11/2024):** National **speed coding competition finalist**.
- **Winner – Kickstart Your Startup (12/2024):** Pitched and **developed a startup solution within 1 hour**.
- **Participant – UMDAC Datathon 2024 (12/2024):** Analyzed **real-world cryptocurrency data** using **EDA and machine learning**.
- **Participant – Alibaba Hackathon (05/2025):** Innovating in **AI and Alibaba Cloud tech** in a nationwide **hackathon**.

Projects

- **Hookworm Ova Detection (FYP) [Python, YOLOv8, FastAPI, Next.js]:** End-to-end AI diagnostic tool that detects parasite eggs and computes infection intensity. Trained YOLOv8n model to **98% mAP@0.5** and shipped a full-stack dashboard with async inference.
- **BumpToBaby [Flutter, Firebase, Gemini, Perspective API, Google Maps]:** AI pregnancy companion with AI-curated diet, health, and family-planning plans, medical translation, and a Perspective-moderated community feed with a Maps clinic finder.
- **JobSwAlpe [Flutter, Firebase, Alibaba Cloud Model Studio, Qwen]:** LLM-powered job-search app integrating Qwen for intelligent matching, with Firebase Auth and Firestore-backed listings, saved jobs, and profile management.
- **Findamental [Python, PyMuPDF, Docling]:** NL query tool answering questions over Bursa Malaysia financial filings, returning exact figures with annotated source-page crops via OCR, layout parsing, and fuzzy matching.
- **StudyLah [Java, Android Studio, MySQL]:** Android marketplace for students to find tutors and trade textbooks; built the full CRUD backend and database schema.

Certifications & Training

- **Microsoft AI & ML Engineering Specialization (Microsoft, 2026)**
- **SAS Machine Learning Engineer Specialization (SAS, 2025)**
- **IBM Deep Learning with PyTorch, Keras and TensorFlow Specialization (IBM, 2025)**
- **IBM RAG and Agentic AI Professional Certification (IBM, 2025)**
- **AWS Generative AI and AI Agents with Amazon Bedrock Specialization (AWS, 2025)**
- **Oracle Cloud Infrastructure Generative AI Professional Certification (Oracle, 2025)**
